Remote-controlled flight cage for training pointing dogs.

The **CANIFLY flight box from Num'Axes** is designed to simulate the natural flight of a **pigeon or partridge** in order to work on the dog's reflexes during training for steadiness to flight or for English-style flushing.

- **Use:** training pointing dogs or retrievers
- **Opening:** remote-controlled with side gate
- **Control unit:** waterproof to immersion
- **Battery life:** approximately 250 flights
- **Weight:** 2.38 kg
- **Open dimensions:** 30 x 24 x 30 cm
- **Dimensions when closed:** 30 x 13 x 30 cm
- **Power supply:** 3 AA LR06 1.5V batteries (included)

Realistic training for flushing game birds

The **Canifly release box** allows you to simulate the **natural release** of a pigeon or partridge at a chosen moment, thanks to a **remote control** . It's the ideal tool for developing steadiness in flight in dogs, correcting their reactions, or perfecting the English style of retrieve.

Precise opening and practical design

Its **unique side gate** makes it easy to introduce the bird with both hands free. A real comfort boost in the field. The opening system offers excellent **responsiveness** to closely match hunting conditions.

Robust, self-contained and easy to transport

Lightweight (**2.38 kg**), foldable (13 cm high when closed), and powered by **3 AA batteries** (included), this device provides up to **250 activations** before battery replacement. Its control unit is **waterproof** for use in all conditions.

FAQ

What type of game can be used with this release box?

The Canifly box is designed for birds such as pigeons or partridges as part of a training program.

Does the box come with batteries?

Yes, 3 LR06 AA 1.5V batteries are supplied with the Canifly flight box.

Is it compatible with a standard Canifly remote control?

Yes, this launch box is designed as an additional accessory for existing Canifly systems.
