Range of 1500m for unrestricted training

The **Canicom 5.1500** remote control allows you to intervene remotely up to **1500 meters** to correct, guide, or recall your dog, even in large open spaces. You can control up to **4 collars** (2 included in this pack).

Communication tailored to each situation

The system offers **three types of stimulation** : **a beep** , **vibration** (ideal for hearing-impaired dogs), and **electrostatic stimulation** adjustable to **25 levels** . A dedicated Booster button allows for a quick response in case of emergency.

Robust and easy-to-use equipment

The **ergonomic remote control** with LCD screen is easy to handle. **Canicom 5 collars** are **waterproof** and operate on a CR2 battery (included). The polyurethane straps are **washable and adjustable** (6 to 20 cm neck circumference).

A complete pack with all accessories

The kit includes **2 collars** , **2 colored straps** (orange + fluorescent green), **2 sets of electrodes** (short and long), a **multi-tool** , a **wrist strap** , and a **rigid carrying case** . Ready to use right out of the box.

FAQ

How many dogs can be managed with this pack?

This pack allows you to manage 2 dogs upon receipt, and up to 4 with the addition of additional Canicom 5 collars.

Is the system waterproof?

Yes, the collars are waterproof and the remote control is splash-proof.

Are the vibrations adjustable?

No, the vibrations are not adjustable in intensity, but the electrostatic stimulations are adjustable across 25 levels.
