Complete system for training and remote tracking up to 1500 m.

The **NUM'AXES Canicom 1500 Pro + Canibeep Radio** is a combined system for remote training and sound tracking of pointing dogs, designed for hunting in the undergrowth.

- **Dressage range:** up to 1500 m
- **Hearing detection range:** approximately 200 m
- **Stimulation:** 18 adjustable levels
- **Distinct sounds:** 4 to choose from
- **Beeper modes:** stop only or stop + movement
- **Compatibility:** Up to 2 training collars, 2 Canibeep collars, 4 Canifly boxes
- **Volume and sensitivity:** adjustable
- **Accessories included:** batteries, wrist strap, electrodes, tester

A pack designed for pointing dogs

The **Canicom 1500 Pro** is a system designed for woodcock hunters, combining training and audio tracking in the forest. It combines an **electrostatic training collar** and a **Canibeep Radio collar** mounted together on the same strap, for perfect synchronization between recall and location.

Control up to 1500m with multi-function remote control

The remote control can operate up to **2 training collars** , **2 Canibeep tracking collars** , and **4 Canifly launchers** . An ideal solution for managing multiple dogs or accessories simultaneously.

- **Electrostatic stimulation:** 18 adjustable levels
- **Quick functions:** reminder, beep, booster, vibration

Precise sound tracking in the forest

The **Canibeep Radio** allows you to locate a dog by sound up to 200 meters. Two operating modes are available: signal only when stationary, or when moving + stop. Each collar emits a distinct and identifiable sound from among **4 different tones** . Volume and sensitivity are also adjustable

depending on the environment.

Compatibility and scalability

The system is designed to evolve: you can add additional training collars, beepers, or Canifly boxes at any time. This modularity is appreciated by demanding users in varied hunting terrain.

Package contents

The kit contains: 1 Canicom 1500 Pro collar with electrodes, 1 Canibeep Radio collar, 1 1500 Pro remote control, 2 CR2 lithium batteries, 1 wrist strap, 1 tester, 1 set of long electrodes, 1 black polyurethane strap, 1 user guide.

FAQ

Is this pack compatible with other Canicom products?

Yes, the Canicom 1500 Pro remote control is compatible with all collars in the Canicom 5 range, Canibeep Radio Pro and Canifly launch boxes.

Does the beeper work in flat terrain?

No, the Canibeep Radio beeper is specifically designed for hunting in the forest (woodcock). It is not suitable for use in open fields.

How many dogs can be managed with this system?

The remote control can operate up to 2 Canicom training collars, 2 Canibeep Radio collars and 4 Canifly boxes simultaneously.
