NUMP0151	Bloc d'alimentation 7.5V 250 mA pour boîtier MIX FUG1031/MIX FUG1033	Vente libre	7.5	19.00 € incl. tax

7.5V wall charger for NUM'AXES anti-escape and anti-barking devices.

The **NUM'AXES 7.5V - 250mA power supply** is designed for older Canifugue Mix transmitter units and certain anti-barking collars. It provides a safe and continuous power supply for your electronic equipment.

- **Input:** 230 V - 50 Hz - 16 mA
- **Output:** 7.5 V - 250 mA
- **Plug:** European
- **Compatibility:** Iki Pulse, Canifugue Mix FUG1031/1033 (older series), Canifugue Pro
- **Required check:** Check the voltage of your device (7.5V only)

Power supply for older cases: caution required

The **NUM'AXES 7.5V - 250mA charger** is specifically designed for older generation **anti-escape** and **anti-barking** devices. It provides a stable voltage for optimal operation of your devices, provided that electrical compatibility is respected.

Be careful with the voltage of the Canifugue Mix boxes

This charger is **designed for 7.5V models** . The newer **FUG1031** and **FUG1033** series require 15V. Therefore, it is essential to **check the voltage indicated on the label on the back of the unit** before purchasing. This charger is not compatible with 15V versions.

Extended compatibility

- **Iki Pulse:** anti-barking collar
- **Canifugue Mix FUG1031 and FUG1033:** only the 7.5V series
- **Canifugue Pro:** compatible transmitter box

Reliable and robust, this power supply is perfectly suited to these devices, provided the correct voltage configuration is respected.

FAQ

Is this charger compatible with all Canifugue Mix cases?

No, it is only suitable for older models that indicate 7.5V on the rear label. Newer models require 15V.

How can I check if my device is compatible?

Check the label on the back of your transmitter box: it must indicate a 7.5V output to be compatible.

Is it compatible with the Iki Pulse collar?

Yes, this power supply is compatible with the Iki Pulse anti-barking collar.
