NUMP0150	Bloc d'alimentation 15V 150mA pour boîtier FUG1030/FUG1032/SMALL	Vente libre	15	19.00 € incl. tax

15V wall charger for new generation Canifugue transmitter boxes.

The **NUM'AXES 15V - 150 mA power supply** is designed for the latest series of **anti-escape control boxes** . It provides the appropriate voltage to ensure reliable power supply to electronic fence transmitters.

- **Input:** 230 V - 50 Hz
- **Output:** 15 V - 150 mA
- **Plug:** European
- **Compatibility:** FUG1030, FUG1032, Canifugue Small, FUG1031/1033 new series
- **Required verification:** The voltage indicated on the back label of the case must be 15V

Power supply unit dedicated to the new Canifugue series

This **15V - 150mA charger** from **NUM'AXES** is specifically designed to power the latest generation of **electronic fence transmitters** . Its voltage is calibrated to prevent any malfunction of your **anti-escape containment** devices.

Check compatibility before use

This model should only be used if the label on the back of the casing indicates a **voltage of 15V** . It is not suitable for older series (7.5V). Incorrect charging can compromise the proper functioning of the system.

Product compatibility

- **FUG1030** - Anti-escape transmitter unit
- **FUG1032** - Anti-escape transmitter unit
- **Small Canifugue**
- **FUG1031 and FUG1033** - 15V series only

Compact and reliable, this unit is designed to complement the brand's **professional and domestic** equipment.

FAQ

How can I tell if this charger is compatible with my device?

Check the label on the back of your device. This charger is only suitable if the indicated voltage is 15V.

Can this unit replace a 7.5V charger?

No. Using a 15V charger on a 7.5V device risks damage. The voltage must be perfectly matched.

Which models are compatible with this charger?

The FUG1030, FUG1032, Canifugue Small models and the recent FUG1031 and FUG1033 (15V) series are compatible.
