10 mm electrodes for short-haired dogs - compatible with Canifugue NUM'AXES.

NUM'AXES short electrodes ensure optimal contact for **short-haired dogs** equipped with **Canifugue** collars. Supplied in a pack of 2, they are identical to the original models supplied with the device.

- **Compatibility:** Canifugue Collar / Canifugue Small
- **Use:** Short-haired dogs
- **Quantity:** Pack of 2 electrodes
- **Height:** 10 mm
- **Color:** Silver
- **Manufacturer reference:** CPSSELOT086

Comfort and efficiency for short coats

The **short NUM'AXES electrodes** measure **10 mm** , a height perfectly suited to **short-haired dogs** . They allow direct contact with the skin, guaranteeing precise stimulation without excessive discomfort.

Compatible with Canifugue and Canifugue Small

Whether you use a **standard Canifugue anti-escape transmitter unit** or the **Small model** , these short electrodes are compatible with all NUM'AXES receivers in this range. They are easily interchangeable with the long electrodes if needed.

Official NUM'AXES electrodes

This set contains **two silver-colored electrodes** , identical to those supplied with the original collar. Replacing them ensures **the proper functioning of the system** after wear or loss, while maintaining the equipment's conformity.

FAQ

Are these electrodes compatible with all Canifugue collars?

Yes, they fit the Canifugue and Canifugue Small models from NUM'AXES.

What is the height of the short electrodes?

They measure 10 mm, ideal for short-haired dogs.

Can they replace long electrodes?

Yes, if your dog has short hair, they can be used instead of long electrodes.
