NUMP0025	2 électrodes longues Canicalm Premium/Canifugue FUG1030 FUG1031	Vente libre	10.00 € incl. tax

Special for short hair: replacement electrodes for Canifugue Mix collars.

NUM'AXES short electrodes are designed to ensure **optimal contact** on short-haired dogs equipped with the **Canifugue Mix** system. Identical to the original models, they are ideal for everyday use.

- **Compatibility:** Canifugue Mix Collars
- **Use:** Short-haired dogs
- **Quantity:** Pack of 2 electrodes
- **Color:** Gray
- **Manufacturer reference:** CPSSELOT012

Suitable for short-haired dogs

Canifugue Mix short electrodes provide **effective stimulation** while preserving the animal's comfort. Their length is ideal for ensuring contact without excessive pressure on the skin.

Compatible with the Canifugue Mix system

These electrodes are specifically designed for **NUM'AXES Canifugue Mix collars** . They replace or complement the original models to maintain the optimal performance of the anti-escape collar.

Quick and easy replacement

The **set of two** short electrodes is **grey** and screws directly onto the receiver module. Easy to install, they allow you to continue using your invisible fence without interruption.

FAQ

Are these electrodes compatible with all Canifugue collars?

No, they are specific to the Canifugue Mix models. For other collars, there are suitable electrodes available.

Should I use these electrodes if my dog has long hair?

No, longer electrodes are more suitable for long-haired dogs to ensure good contact.

Can they replace the original electrodes?

Yes, these electrodes are identical to those supplied with the Canifugue Mix collar upon purchase.
