Perfect seal for battery compartment of NUM'AXES Soft collars.

The **NUM'AXES sealing gasket** is designed to protect **the battery compartment** on Canicom Soft and **EYENIMAL Training Soft training collars** . It guarantees a reliable barrier against moisture and dust.

- **Compatibility:** Canicom Soft / Eyenimal Training Soft
- **Function:** Battery compartment seal
- **Installation:** Easy to install and replace
- **Use:** Preserves the electronic integrity of the collar

Battery compartment protection in all situations

This **sealing gasket** is designed to effectively protect the **battery compartment** of **Canicom Soft** and **Eyenimal Training Soft** collars. It forms a barrier against the **ingress of water, dust, or mud** , thus extending the life of the device.

Designed for collars in the Soft range

Specifically designed to fit the battery compartment dimensions of these models, this seal ensures a **perfect fit** without altering the collar's structure. It is easily replaced during maintenance or battery changes.

Prevention of oxidation and breakdowns

A good seal is essential to protect electronic components. This seal prevents **corrosion** caused by humidity and ensures **optimal reliability** , even in humid or muddy environments.

FAQ

Is this seal compatible with all Canicom collars?

No, this seal is intended exclusively for the Canicom Soft and Eyenimal Training Soft models.

How often does it need to be replaced?

It is advisable to replace it as soon as it shows signs of wear or each time the battery is changed to ensure constant sealing.

Is this seal difficult to install?

No, it can be easily installed and removed without any special tools.
