Locate your dog in real time, even out of sight, with an integrated GPS + beeper system.

The **Midland BeeperOne GPS** is an advanced hunting dog tracking system, combining **GPS** tracker and **acoustic beeper** , designed to offer precise control in all terrain conditions.

- **GPS location:** range up to 2.5 km
- **Acoustic signals:** customizable according to the hunting phase
- **Vibrations:** configurable
- **Waterproofing:** IPX7 standard, suitable for immersion
- **Battery life:** up to 60 hours. Recharges via USB-C (charging cable, dock and power adapter included)
- **Compatibility:** manages 2 dogs simultaneously
- **Multidirectional communication:** real-time feedback

Real-time GPS tracking over 2.5 km

The **BeeperOne GPS** allows you to precisely track your dog's position, even over long distances. Thanks to an **integrated GPS** module and a **digital compass** , you can view your dog's direction, distance, and movements in real time up to 2.5 km, depending on the environment.

- **Instant display:** direction and distance on the remote control screen
- **Satellite accuracy:** even in forests or rugged terrain
- **Continuous synchronization:** collar and remote control interconnected
- **Necklace length:** 65 cm
- **Necklace width:** 2.5 cm

Customizable beeper and vibration

Each phase of the hunt (searching, pointing, moving) can be associated with a **specific sound signal** or **vibration** . This allows you to adapt your interaction with your dog according to the game

being hunted, the environment, or your personal preferences. Discretion is ensured thanks to the **silent mode,** which can be configured at any time from the remote control.

Waterproof and robust collar

This model stands out thanks to its **shockproof** casing, ideal for the most demanding terrains. **IPX7** certified, it resists rain, mud, and immersion up to 1 meter. It maintains its performance, even in extreme conditions.

Designed for modern hunting

With the **ability to connect two collars** , you can simultaneously control multiple dogs, perfect for hunting woodcock, hare, or wild boar. The **BeeperOne GPS** is a true technological partner for **organized, precise, and responsible hunting** . The **compass** and **mapping** functions must be deactivated during the hunt. The BeeperOne recharges easily via its USB-C cable, and comes with a convenient **wall-mounting case** and **automatic charging shut-off** for added safety and convenience.

FAQ

What is the maximum range of the GPS?

The GPS range is **2.5 kilometers** under optimal conditions. It may vary depending on the terrain.

Does this system allow for the management of multiple dogs?

Yes, the **BeeperOne GPS** allows you to track up to **2 dogs** simultaneously with a single remote control.

Is the necklace waterproof?

Yes, the collar is **IPX7 waterproof** , it can be submerged up to 1 meter without loss of performance.

Can I use the GPS and/or compass function to hunt woodcock?

No. When using the **Beeper** , the **compass** and **mapping** functions must be deactivated. Their use is strictly prohibited during the hunt. They may only be activated after the hunt is over, specifically to find a lost dog, and only when the firearm is unloaded.

What types of collars is this product compatible with?

This product is compatible with all other 2.5cm wide polyurethane collars.
