UG1069T	Tactical launcher adapter Tamiya male / Deans female	Vente libre	4.00 € incl. tax

The **Lancer Tactical** adapter allows you to convert a **Small Tamiya** plug to a **Deans** plug, for better compatibility of your batteries in your airsoft replicas.

- **Type:** Battery adapter
- **Input connection:** Small Tamiya male
- **Output connection:** Standard Deans female
- **Construction: Low resistance wiring**
- **Compatibility:** Batteries and airsoft replicas

Convenient adapter for airsoft batteries

In the world of airsoft, batteries and replicas often use different types of connectors. This adapter allows you to easily convert a **male Small Tamiya** plug to a **female Deans connector** , without any wiring modifications. An essential item for players looking for greater flexibility while optimizing power flow.

Low-resistance wiring for increased efficiency

The **low-resistance wire** construction ensures smoother power transfer and minimizes voltage drop, which is especially beneficial with high-performance LiPo batteries. The result is clear: improved firing responsiveness, less heat generation, and greater consistency during gameplay.

High-quality Deans connectors

Deans connectors are renowned for their reliability and excellent conductivity. Their compact design ensures a secure connection and better current retention, even during intense gaming sessions. The adapter uses high-quality components for maximum durability.

Quick and easy to use

Whether you need to temporarily switch between formats or standardize your battery setup, this **Lancer Tactical** adapter connects in seconds. No tools are required, and it's directly compatible with most airsoft batteries equipped with **Small Tamiya** connectors.

FAQ

Is this connector compatible with LiPo batteries?

Yes, it is compatible with LiPo batteries equipped with a Small Tamiya male connector.

Can it be used on an AEG replica?

Yes, this adapter is designed to work with AEG replicas that have a Deans connection.
