14-piece tactical ratchet wrench with ultra-resistant Cerakote finish.

The **GUN POWER TOOL 14-piece Cerakote Shell Socket Kit** is a high-performance tactical tool set designed for demanding users. It includes a 72-tooth ratchet wrench and 13 stylish "cartridge" sockets, all with a durable **Cerakote** finish that withstands wear and extreme conditions.

- **Ratchet wrench:** 72 teeth, double swivel head
- **Rotation:** reversible, head can be rotated 90°
- **Sockets:** 13 bullet-style bits
- **Finish: Cerakote** on handle and box
- **Surface treatment of sockets:** solvent-free, heavy metal-free
- **Storage case:** compact, rigid, tactical style

A kit designed for tactical intervention

This 14-piece kit draws direct inspiration from the **military** : **cartridge** -shaped sockets, an aggressive ratchet wrench, and a reinforced case. Designed for demanding environments, it's equally at home in a workshop or a tactical bag.

72-tooth ratchet wrench : precision and control

The ratchet wrench offers a short stroke, ideal for tight spaces. Its **reversible, double-headed mechanism** and **90° swivel head** allow easy access even in difficult corners. A true field solution.

Tactical shells : bullet style and eco-friendly treatment

Each casing features a design inspired by **lightweight ammunition** for a distinctive look. They undergo a physical treatment free of solvents and heavy metals, combining **durability** , **corrosion protection** , and environmental responsibility. Natural variations in color enhance their authenticity.

Cerakote finish : extreme resistance

Applied to the handle and case, the **Cerakote ceramic coating** is renowned for its durability: it resists abrasion, heat, and corrosion, while offering a unique tactical aesthetic. It is a protective coating adopted by armed forces worldwide.

FAQ

What is Cerakote finish?

This is a ceramic coating used in the military industry for its resistance to wear, corrosion and heat.

Are the sockets compatible with other ratchet wrenches?

Yes, the sockets are standard size and can be used with other compatible wrenches.

Is the kit suitable for professional use?

Absolutely. It is designed for workshops, technicians and field users seeking reliability and durability.
