Set of 6 treated alloy steel pin punches, with non-slip support.

The **GUN POWER TOOL 6-piece HRC Steel Pin Punch Set** is a gunsmith's tool designed for precise and repeated use on airsoft replicas or real firearms. Combining robustness, stability, and a tactical finish, it includes a rigid holder for secure storage.

- **Sizes included:** 1mm, 1.5mm, 2mm, 3mm, 4mm, 5mm
- **Material: 8660 Nickel-Chromium-Molybdenum** alloy steel
- **Hardness:** HRC 52-58
- **Finish:** Aged black, tactical look
- **Treatments:** precision straightening and heat hardening
- **Handle:** knurled, non-slip
- **Support:** ABS with secure hold

A tactical and precise set

This set of **6 pin punches** is designed for disassembly and fine maintenance work on mechanisms. Its unique feature? An **ultra-fine 1 mm tip** , rare on the market, ideal for the thinnest pins and delicate handling on replicas or real firearms.

8660 steel : strength combined with precision

Forged from 8660 **nickel-chromium-molybdenum** steel, these tools are both **hard (HRC 52-58)** and torsion-resistant. Each pin punch is **straightened and heat-treated** for perfect straightness, essential for precise, deviation-free strikes.

Ergonomic design and raw finish

The knurled handle provides a **secure and comfortable grip** , even with gloves. The aged black finish gives it a raw, **machined, tactical** look while protecting the surface from corrosion.

ABS stand : stability and storage

The rigid **ABS** base keeps tools securely in place while facilitating their removal. Its compact design prevents them from falling and keeps everything organized on the workbench or in a tool bag.

FAQ

Is this kit suitable for real weapons?

Yes, the hardened 8660 steel and the range of sizes included make it perfectly suited for interventions on firearms or replicas.

What is the minimum size available?

The finest tip measures 1 mm, ideal for precision pins or hard-to-reach technical areas.

Is the support fixed or removable?

It is stable but removable, allowing for convenient storage while preventing tools from slipping or falling.
