Receive your field photos automatically on your smartphone.

The **NUM'AXES PIE1150** is a cellular camera trap designed to effectively monitor a territory remotely through the automatic sending of images to a dedicated mobile application.

- **Type:** 4G Cellular Camera Trap
- **Photo resolution:** Up to 32 MP
- **Video resolution:** Up to 2K
- **Detection angle:** 60°
- **Field of view:** 89°
- **Infrared range:** Approximately 20 m
- **Trigger speed:** 0.4 seconds
- **Waterproof rating:** IP66
- **USB Type-C port** for downloading files (USB cable included)
- **Power supply:** 8 AA batteries
- **Dimensions:** 135.5 x 103 x 70 mm
- **Weight:** 290 g (without batteries) - 470 g (with batteries)

Connected observation, simple and effective

Designed for unrestricted field use, this camera trap allows captured images to be automatically received directly on a smartphone via a **free mobile app** . An ideal solution for game tracking, monitoring plots of land, or discreetly controlling a site.

NUM'AXES SIM card included

The **NUM'AXES PIE1150** works exclusively with the data SIM card supplied by the brand. Compatible with multiple operators (Orange, SFR, Bouygues Telecom, Free Mobile), it guarantees optimal coverage in France without complex configuration.

Image quality and responsiveness

Thanks to its CMOS sensor and a **photo resolution of up to 32 MP** , images remain detailed day and night. The fast 0.4-second shutter speed allows you to capture fleeting moments, even from a distance.

Invisible Night Vision

Invisible infrared LEDs ensure complete discretion without disturbing wildlife. A range of approximately 20 meters offers an excellent balance between coverage and clarity, even in complete darkness.

Robustness and autonomy in the field

Certified **IP66** , the device is weatherproof and resistant to harsh conditions. It operates on 8 AA batteries and also has a socket for external power (solar panel or mains adapter).

Package contents:

- 1 **NUM'AXES PIE1150** cellular camera trap
- 8 AA batteries
- 1 x 32 GB memory card
- 1 **NUM'AXES** multi-operator data SIM card

FAQ

Does the PIE1150 work with a personal SIM card?

No, this model works exclusively with the supplied NUM'AXES SIM card, included in the pack.

Are the videos sent to the application?

No, only photos are transmitted. Videos are recorded on the micro SD card.

Can the trap be powered by a solar panel?

Yes, a dedicated socket allows the use of an external power supply such as a solar panel.
