## Airsoft gas designed for demanding and perfectly controlled GBB configurations

**Nuprol 2.ZERO Silicone Free Green Gas Airsoft Gas** is designed for players and technicians seeking clean, stable, and fully controlled operation of their GBB replicas. Its silicone-free formula ensures cleaner internal operation and provides long-lasting protection for sensitive components.

- **Silicone-free formula** for a clean internal environment
- Regular and controlled operation over repeated cycles
- Suitable for precision-tuned GBB replicas
- Compatible with tight-fitting barrels and optimized hop-up units
- Manual lubrication management for customized maintenance

**Nuprol 2.ZERO Silicone Free Green Gas** is designed for users who want to eliminate all traces of silicone from their GBB replica. This technical choice limits fouling, protects seals, and prevents the gradual contamination of hop-up rubbers, while ensuring a smooth and consistent cycle.

### Box contents

- 1 Nuprol 2.ZERO Silicone Free gas cylinder

### Technical specifications

- **Type:** Airsoft gas without silicone
- **Capacity:** 650 ml
- **Net weight:** 300 g
- **Pressure:** 145 PSI / 12 kg
- **Compatibility:** GBB and GBBR replicas
- **Formulation:** Clean propellant with stabilizing additives
- **Brand:** Nuprol
- **EAN:** 5056444737267

### FAQ

#### Is this gas suitable for all GBB replicas?

Yes, it is perfectly suited for GBB pistols and rifles, especially precision-tuned setups.

**Why choose a silicone-free gas?**

The absence of silicone limits internal residues and preserves the quality of the hop-up seal in the long term.

**Should the replica be lubricated separately?**

Yes, using a suitable silicone spray allows for precise control of the lubrication of moving parts.

**Is this gas suitable for heavy-duty use?**

Its stable formulation ensures consistent performance even during long gaming sessions.
