A compact format designed for easy handling

With its compact dimensions, this model from the VX9 series is remarkably agile. The overall balance and ease of handling are immediately apparent, especially during rapid transitions. The compact design doesn't compromise stability; quite the opposite.

Ergonomics and comfortable grip

The lightweight polymer frame features an effective **stippled textured grip**, complemented by a pronounced groove at the trigger guard. This configuration promotes a high and firm grip, even with the supporting hand. The result: consistent control, shot after shot.

Engineered slide and blowback cycle

The **aggressively serrated** slide ensures secure handling in all conditions. The blowback is crisp and well-calibrated, delivering a clean feel without excessive recoil. A balance appreciated for dynamic recreational shooting.

Equipment and versatility

The threaded outer barrel allows for the mounting of a compensator or dummy suppressor. The integrated lower rail allows for the addition of accessories such as a light or laser, enhancing the overall versatility.
