- **Relaxation:** single stage openwork, 0.7 mm pre-race
- **Handguard:** M-LOK
- **Controls:** Ambidextrous selector switch and charger button
- **Disassembly:** quick and tool-free using 4 pins
- **Supplied with:** 10-round magazine, flip-up sights, maintenance kit

CERAKOTE Woodland Delta finish

With its **CERAKOTE Woodland Delta** treatment, this special edition boasts a unique character. Beyond its aesthetic appeal, the ceramic coating enhances resistance to abrasion and corrosion. On the shooting range, it's sure to turn heads - a model designed for those who want to combine performance with a strong visual identity.

Super V technology and increased stability

The platform is based on the **Super V** system, which incorporates a delayed-opening bolt. Recoil energy is redirected downwards, limiting muzzle rise. In practice, this translates into **better-controlled recoil** and excellent stability during rapid-fire sequences in **dynamic shooting** .

5.5" threaded barrel and precision

The **4140 Chrome Moly steel barrel** with a **Black Nitride** finish guarantees robustness and longevity. The **1:10 twist rate** ensures stability suitable for the calibers offered. The **1/2x28** or **.578x28RH** thread allows for the installation of compatible accessories, in accordance with current regulations.

GEN3 ergonomics and advanced modularity

The third generation offers a significant improvement in comfort. The **skeletonized, telescoping stock** enhances compactness and shouldering. The **single-stage trigger** with a short pre-travel (0.7 mm) provides a crisp and consistent break. The **M-LOK handguard** and the **interchangeable MILSPEC pistol grip** allow for customization to suit the shooter's preferences.

- **Finish:** CERAKOTE Woodland Delta
- **Category:** B (subject to authorization)
- **Use:** target shooting at a shooting range
- **Platform:** Vector GEN3 semi-automatic

FAQ

What are the acquisition conditions?

This model is classified in category B. Its acquisition requires a valid prefectural authorization as well as a valid sports shooting license.

Which chargers are compatible?

The platform is compatible with GLOCK magazines of the corresponding caliber (9x19mm or .45 ACP depending on the version), within the limits of the permitted capacities.

What type of maintenance is recommended?

Regular cleaning of the barrel, chamber, and bolt system is recommended after each shooting session. Quick, tool-free disassembly greatly simplifies this process.
