- **Barrel length:** 5.5" (140 mm)
- **Total length:** 279 mm

A powerful single-action .44 Magnum shotgun

Chambered in **.44 Remington Magnum** , this revolver is for shooters seeking a straightforward feel and pure mechanics. Its **single-action** operation requires cocking the hammer before each shot, providing a crisp and controlled trigger pull. A traditional, precise action... and one that always appeals to enthusiasts.

Canon 5.5": balance and versatility

With its 5.5" (140 mm) barrel, the Black Thunder offers an excellent balance between stability and maneuverability. This length promotes a good sight picture while maintaining a dynamic grip. At the range, you benefit from a natural balance, particularly appreciated during sustained firing sessions.

Fiber optic sights

The fixed **fiber optic** front sight, combined with an adjustable rear sight featuring a green insert for elevation and windage, allows for rapid and precise target acquisition. This technical choice modernizes the classic revolver design and facilitates adjustments based on the ammunition used.

Steel construction and Hogue® ergonomics

Constructed entirely of **steel** , this revolver offers robustness and durability. The **Hogue® rubber** grips significantly improve handling and absorb some of the vibrations generated by the caliber. The **transfer bar** safety system enhances mechanical safety during use.

FAQ

What are the conditions for acquiring this revolver?

This .44 Magnum caliber revolver is classified in category B. Its acquisition requires a valid prefectural authorization, a valid sports shooting license and compliance with French regulations.

What is the advantage of an adjustable sight?

The adjustable elevation and windage sight allows for precise adjustment of the point of impact according to the distance and ammunition used, thus optimizing accuracy in sport shooting.

Does the Transfer Bar system provide additional security?

Yes, the transfer bar prevents direct contact between the dog and the firing pin without pressure on the trigger, improving mechanical safety during handling.
