Reliable power for your electronic accessories.

The **NUM'AXES 23A 12V Battery Blister Pack** is designed to efficiently power your **electronic accessories** thanks to high-performance and stable **alkaline** technology.

- **Format:** 23A
- **Voltage:** 12 Volts
- **Technology:** Alkaline
- **Capacity:** 55 mAh
- **Packaging:** Blister pack of 2 batteries
- **Equivalencies:** E23A, V23GA, MN21, LRV08, LR23A

Stable 12-volt power supply

With a voltage of **12V** , these **23A** batteries provide a constant power supply for devices requiring a compact and efficient source. **Alkaline** technology offers good lifespan and even discharge.

Wide compatibility

Thanks to their many **equivalents** (E23A, V23GA, MN21, LRV08, LR23A), these batteries are suitable for various equipment: remote controls, electronic collars, training systems or specific accessories compatible with 23A.

Convenient packaging

The blister pack of 2 batteries provides an immediately available spare. Compact and easy to store, it fits easily into a field bag or workshop drawer.

FAQ

Are these batteries rechargeable?

No, these are non-rechargeable alkaline batteries. They must be replaced once discharged.

Which devices are they compatible with?

They are compatible with all devices using 23A 12V batteries or their equivalents (E23A, V23GA, MN21, LRV08, LR23A).

What is the capacity of these batteries?

The advertised capacity is 55 mAh, suitable for low-power electronic devices.
