A secure and invisible perimeter for cats and small dogs.

The **NUM'AXES Canifugue Small Anti-Escape Fence** is a complete system for safely containing **cats and small dogs** within a defined perimeter. Simple to install and reliable, it offers freedom of movement while preventing escapes.

- **Type:** Anti-escape fence with antenna wire
- **Number of collars:** Unlimited per transmitter
- **Stimulation levels:** 8 adjustable levels
- **Necklace:** Rechargeable - waterproof
- **Collar battery life:** Approximately 80 hours
- **Wire supplied:** 100 m spool (0.52 mm²)
- **Transmitter power supply:** 220V mains
- **Warranty:** 2 years

Simple and effective operating principle

The system relies on an **antenna wire** installed around the permitted area (laid on the ground, buried, or attached to an existing fence). This wire forms a continuous loop connected to the transmitter. When an animal wearing the collar approaches the boundary, it first receives an **audible warning** . If it continues, adjustable **electrostatic stimulations** are delivered.

Suitable for cats and small dogs

The **Canifugue Small** collar, lightweight (23 g), is specially designed for small dogs. Its nylon strap with **anti-strangulation elastic** is adjustable from approximately 17 to 55 cm. Waterproof, it withstands outdoor conditions.

Integrated security

The system incorporates three security devices:

- **Wire break indicator**
- **Automatic evacuation of the audible warning zone**
- **Automatic evacuation of the stimulation zone**

Each collar has **8 intensity levels** to precisely adapt the setting to the temperament and sensitivity of the animal.

Evolutionary system

A single transmitter unit can manage an **unlimited number of collars** . All NUM'AXES anti-escape units are compatible with NUM'AXES anti-escape receiver collars, making it easy to expand your system.

Contents of the complete kit

- **1 Canifugue Small rechargeable collar**
- **1 nylon strap with anti-strangulation elastic**
- **1 charging base + power adapter**
- **1 transmitter unit + power supply**
- **1 reel 100 m of antenna wire**
- **Connectors, pennants, magnetic key, long electrodes, test lamp**
- **User guide**

Technical data

- **Transmitter dimensions:** 117 x 110 x 28 mm
- **Necklace dimensions:** 44 x 28 x 25 mm
- **Necklace battery:** Rechargeable 3.7V Lithium-Polymer

FAQ

Can the system be installed without a physical fence?

Yes, the system works with an invisible antenna wire that delimits the authorized perimeter without the need for a physical fence.

Can we add more than one animal?

Yes, the number of collars is unlimited for the same transmitter unit.

Is the collar suitable for small dogs?

Yes, the Small model is specially designed for cats and small dogs, with a lightweight design and an adjustable strap.
