EN2835	STILL CRIN Cleaning wand Ø6 mm 98US/6	Vente libre	F#8 - 32 UNC	100	39.00 € incl. tax

One-piece varnished rod, smooth and robust for precise rifle maintenance.

The **STILL CRIN Ø 6 mm cleaning rod art. 98US/6** is a varnished **one-piece cleaning rod** , equipped with a **ball bearing handle** and supplied with a **1/8 - 8/32 adapter** , ideal for **rifle** maintenance.

- **Diameter:** Ø 6 mm
- **Usable length:** 88.8 cm
- **Handle length:** 10 cm
- **Notebook thickness:** 1.2 cm
- **Type:** 1 piece (one-piece)
- **Finish:** Blue lacquered upper
- **Handle:** On ball bearings
- **Thread:** 8/32 UNC female with 1/8" male adapter

A one-piece rod for added rigidity

Designed as **a single piece** , this 6 mm diameter cleaning rod offers excellent rigidity. This one-piece design minimizes unwanted flexing during passage through the barrel and ensures a linear movement, essential for **precise and rifling-friendly cleaning** .

Ball bearing handle: natural rotation

The **bearing-mounted handle** naturally follows the rifling of the barrel. In practice, the rod rotates freely during cleaning, allowing the cleaning rods and brushes to perfectly follow the inside of the barrel. The result: more efficient, smoother... and more comfortable maintenance.

Universal thread with 1/8 - 8/32 adapter

The wand is equipped with a **1/8" thread** and comes with an **8/32" adapter** , a common standard for many cleaning accessories (brass and nylon brushes, lint rollers). This compatibility facilitates integration into an existing kit.

Protective varnish finish

The varnished blue shaft helps limit the risk of marking and protects the surface against oxidation. This is typically the type of cleaning rod chosen for regular maintenance, whether at the shooting range or in the workshop.

FAQ

What type of weapon is this 6 mm diameter cleaning rod suitable for?

It is suitable for servicing rifles compatible with a 6 mm diameter cleaning rod. The caliber of the firearm should be checked to ensure compatibility.

Does the handle rotate during cleaning?

Yes, the handle is mounted on ball bearings, allowing the rod to rotate freely in order to follow the rifling of the barrel.

What accessories can be screwed onto it?

Thanks to the 1/8 thread and the supplied 8/32 adapter, it accepts many standard swabs and patch holders on the market.
