LE911	Lee Precision Bolt 3/8-24 x 3/4 FB1180	Vente libre	1.00 € incl. tax

Original screw for fixing mold 575-500-M.

The **Lee Precision Bolt 3/8-24 x 3/4 FB1180** is an original part designed to ensure optimal fastening of the **Lee Precision MOLD 575-500-M** mold.

- **Thread:** 3/8"-24 UNF
- **Length:** 3/4" (approximately 19 mm)
- **Compatibility: Lee Precision 575-500-M** mold
- **Type:** Steel fixing bolt

A precise thread for a secure fit

The **3/8"-24 UNF** thread ensures a precise and consistent tightening, suitable for the mechanical stresses associated with using a **ball mold** . In practice, a secure fit for the mold block guarantees correct alignment and a consistent pour - a detail that makes all the difference in repeated production runs.

Specific mold compatibility 575-500-M

This bolt is designed for the **Lee Precision 575-500-M** model. It meets the manufacturer's original specifications, preventing excessive play or unsuitable stress. It's the ideal solution for replacing a worn, damaged, or lost screw.

Original manufacturer part

Using a part with the reference number **FB1180** guarantees compliance with **Lee Precision** standards. Robustness, controlled tolerances, and perfect compatibility: all essential elements for maintaining the reliability of your **reloading** and casting equipment.

FAQ

Is this bolt compatible with other Lee molds?

It is specifically designed for the Lee Precision 575-500-M mold. For other models, it is recommended to check the part number and required thread.

What is the meaning of the 3/8-24 thread?

The 3/8-24 corresponds to a 3/8 inch diameter UNF thread with 24 threads per inch, offering fine and precise tightening.

Why choose a genuine Lee Precision part?

An original part ensures perfect compatibility, compliance with manufacturer tolerances and the mechanical reliability of your equipment.
