SIP3102	Stalon X-Series Neoprene Cover Cordura	Vente libre	40	2	Black	45.00 € incl. tax

Reduces thermal mirage and effectively protects the moderator.

The **Stalon X-Series Neoprene Cover Cordura** is a **neoprene** cover with **Cordura** reinforcement, designed to limit thermal mirage and protect the **sound moderators** of the X-Series range.

- **Compatibility: Stalon X** and W-Series only
- **Compatible models:** XS108, XS149, X108, XE108, X149, XE149
- **Material:** Neoprene with Cordura reinforcement
- **Thickness:** 2 mm
- **Weight:** 40 g
- **Color:** Black

Thermal mirage reduction

During repeated firing, the heat emitted by the **sound moderator** can cause a mirage effect visible in the optics. The **2mm neoprene** cover acts as a thermal barrier, delaying the appearance of this visual haze and improving aiming comfort, particularly for **precision shooting** and when hunting from a blind.

Mechanical protection and discretion

The **Cordura** reinforcement effectively protects the moderator against friction, scratches, and minor impacts. In wooded areas, it also reduces unwanted noise caused by contact with branches - a welcome feature when **hunting** .

X-Series and W-Series compatibility

This cover is specifically sized for the **XS108** , **XS149** , **X108** , **XE108** , **X149** and **XE149** models. The precise fit ensures a reliable, slip-free hold.

Lightweight and easy to install

Weighing between 36 and 40 grams, the cover does not affect the weapon's balance. It installs quickly and is a useful accessory for extending the life of the **moderator** .

FAQ

Is this cover compatible with all Stalon ranges?

No, it is only compatible with the Stalon X-Series and W-Series series mentioned (XS108, XS149, X108, XE108, X149, XE149).

What is the purpose of the neoprene cover?

It helps to reduce thermal mirage in the optics and to protect the moderator against scratches and contact noise.

What is the weight of the cover?

The weight varies between 36 and 40 grams depending on the compatible model.
