- **Finish:** Bronzed
- **Total length:** 108.6 cm (42.75")
- **Weight:** 3.4 kg (7.5 lbs)
- **Optics included:** 3-9x40 scope + pair of mounting rings

A versatile rifle in .270 Winchester

The **.270 Winchester** caliber is renowned for its flat trajectory and effectiveness on **big game**. Combined with a 22-inch barrel, it offers an excellent balance of speed, accuracy, and maneuverability in the field. Whether hunting from a blind or stalking, its comfortable effective range and consistent performance are highly valued.

Fluted barrel with milled crown

The **fluted barrel** helps to lighten the overall weight while promoting better heat dissipation. The **milled crown** protects the rifling at the muzzle and contributes to consistent groupings. The 1:10" twist rate ensures optimal stabilization of common .270 Win cartridges.

Adjustable LBA trigger

The **LBA (Lightning Bolt Action)** trigger is adjustable from 2 to 7 pounds. This allows the hunter to customize the trigger pull weight, providing a crisp and controlled break. The knurled spiral bolt ensures smooth and reliable reloading.

Sturdy synthetic stock

Its **black synthetic stock** is weather-resistant and withstands climatic variations. The weapon thus retains its mechanical qualities regardless of the conditions encountered. Weighing approximately 3.4 kg, it is naturally balanced on the shoulder and comfortable during long outings.

3-9x40 scope included

Supplied with a **3-9x40** scope, this combo version is immediately operational. The variable magnification allows for both short-range shots during driven hunts and medium-range shots from a blind. A simple, coherent, and ready-to-use solution.

FAQ

What are the purchase conditions?

This .270 Winchester caliber rifle is classified in category C. Its acquisition requires a valid hunting permit or a valid shooting license, in accordance with French regulations.

Is the scope already mounted and adjusted?

The 3-9x40 scope is supplied with the rifle. Precise adjustment will be necessary depending on the ammunition used and the desired shooting distance.

Is this model suitable for European big game?

Yes, the .270 Winchester caliber is suitable for hunting roe deer, wild boar and red deer in compliance with regulations and appropriate shooting distances.
