High-precision 10" carbon fiber markings for Demun Storm.

The **BARNETT HyperBolt C10 10" x6 Demun** are **10-inch carbon bolts** specially designed for the **Demun Storm crossbow** , offering speed, stability and accuracy.

- **Length:** 25.4 cm (10")
- **Material:** High-strength carbon
- **Tail assembly:** 3 fletchings
- **Compatibility:** Demun Storm
- **Tip:** Interchangeable standard thread
- **Packaging:** Pack of 6 strips

Designed for the Demun™ Storm

The **HyperBolt™ C10s** were specifically developed for the **Demun Storm** . Their 10-inch length and carbon construction ensure optimal rail support and consistent propulsion at high speeds.

High-strength carbon structure

The **carbon** barrel offers an excellent compromise between lightness and rigidity. This results in a flatter trajectory, increased repeatability, and durability suitable for repeated shots.

Stabilized Fletch 3 Tail Assembly

The **3-fletch** configuration ensures effective in-flight stabilization. Each shot maintains a stable and consistent trajectory, promoting accuracy on target.

Interchangeable tip system

Featuring a **standard thread** , these spikes allow for the quick installation of field point spikes or specific Demun™ spikes (broadhead or blunt force depending on the use). This modularity is a valuable feature for adapting the equipment to each session.

Convenient packaging

Offered in **packs of 6 darts** , the HyperBolt™ C10 are an ideal solution to complement the equipment of a Demun Storm and maintain consistent performance.

FAQ

Are these features compatible with Accu-Strike models?

No, the HyperBolt™ C10 10" are designed specifically for the Demun Storm.

Can the tips be changed?

Yes, thanks to the standard thread, it is possible to install different compatible interchangeable tips.

What is the material of the lines?

They are made of high-strength carbon to guarantee lightness, rigidity and durability.
