A modern 2011 pistol with compensator and Holosun red dot for fast and controlled sport shooting.

The **Tisas 2011 Duty Bull Barrel COMP** in **9x19mm** caliber is a modern pistol inspired by the **2011** platform, designed to offer stability, accuracy, and comfort during **sport shooting** sessions. This **Optic Ready** version comes with a **Holosun HS407C-X2** , a robust micro red dot sight for rapid target acquisition. **Exclusive to TISAS dealers.**

- **Caliber:** 9x19 mm
- **Total length:** 220.5 mm
- **Height:** 146 mm
- **Width:** 37 mm
- **Barrel length:** 124 mm (5" bull barrel)
- **Line of sight:** 153.1 mm
- **Weight without charger:** 1038 g ±10 g
- **Weight with full magazine:** 1339.7 g ±10 g
- **Capacity:** 17+1 shots
- **Relaxation:** simple action
- **Frame material:** forged carbon steel
- **Cylinder head material:** forged carbon steel
- **Safety features:** manual safety, dog safety, beavertail handle safety
- **Compensator:** integrated into the cylinder head
- **Optics: Holosun HS407C-X2** 2 MOA red dot
- **Optical battery:** CR1632

- **Protection rating:** IP67

A modern 2011 pistol designed for performance

The **Tisas 2011 Duty Bull Barrel COMP** retains the proven architecture of the **2011** platform while incorporating performance-oriented improvements. Its **full-frame** forged carbon steel receiver provides remarkable balance and excellent stability during firing.

The **double stack** design allows the use of 17-round magazines while maintaining the typical ergonomics of the 1911. On the firing line, this translates into a stable, comfortable weapon that is particularly pleasant during extended shooting sessions.

5-inch bull barrel cannon

The 124 mm (5") **bull barrel** offers superior rigidity compared to a standard barrel with bushings. Its greater mass reduces vibration and improves shot pattern consistency.

Made from **forged carbon steel** and then treated for high durability, it easily withstands intensive use at the shooting range while maintaining a high level of precision.

Integrated compensator for better control

The unique feature of this version lies in its **integrated compensator** . This redirects some of the gases upwards to limit muzzle rise during firing.

In practice, this improves weapon stability and allows for faster follow-up shots. Shooters practicing dynamic disciplines like **IPSC** will particularly appreciate this increased control.

Optic Ready configuration with Holosun

The pistol comes with a **Holosun HS407C-X2** , a compact micro **red dot sight** renowned for its robustness and ease of use. Its **2 MOA** reticle allows for rapid target acquisition while maintaining precision suitable for sport shooting disciplines.

Thanks to **Shake Awake** technology, the optics activate automatically when the weapon is moved. The integrated solar cell also optimizes brightness according to the environment, contributing to a battery life of up to **50,000 hours** .

- **Reticle:** 2 MOA red dot
- **Dimensions:** 46 x 30 x 30 mm
- **Weight:** 41 g
- **Material:** 7075 aluminum
- **Brightness levels:** 12 (10 day / 2 night)
- **Operating temperature:** -10°C to 50°C

Optimized ergonomics and controls

The **Tisas 2011 Duty Bull Barrel COMP** benefits from enlarged controls facilitating handling: bolt stop, magazine button and ambidextrous safety lever.

The **extended beavertail** improves grip and protects the shooter's hand. The **flared magazine well** speeds up reloading, while the **single-action trigger** with interchangeable profiles allows the shooter to adjust the trigger pull feel to their preference.

FAQ

What is the purpose of the compensator on this pistol?

The compensator redirects some of the gases upwards to limit muzzle rise. This improves the weapon's stability and allows for faster follow-up shots.

Is this model compatible with other lenses?

Yes. The pistol is designed in an optic-ready configuration compatible with RMR standard micro red dots. The Holosun HS407C-X2 is included with this version.

What are the purchasing conditions in France?

This 9x19 mm caliber pistol falls under category B. Its acquisition is subject to prefectural authorization and must be carried out through an authorized gunsmith.
