A modern and precise 2011 platform, equipped with a Holosun micro red dot for rapid target acquisition.

The **Tisas 2011 9DS** in **9x19mm** caliber is a pistol inspired by the 2011 platform, designed to offer precision, ergonomics, and stability during **sport shooting** sessions. This version comes with a **Holosun HS407C-X2** , a robust micro **red dot sight** allowing for rapid target acquisition.

- **Caliber:** 9x19 mm
- **Total length:** 220.5 mm
- **Height:** 146 mm
- **Width:** 37.2 mm
- **Barrel length:** 124 mm (5" bull barrel)
- **Line of sight:** 166.7 mm
- **Weight without charger:** 1053 g ±10 g
- **Weight with full magazine:** 1354.7 g ±10 g
- **Capacity:** 17+1 shots
- **Relaxation:** simple action
- **Frame material:** forged carbon steel
- **Cylinder head material:** forged carbon steel
- **Safety features:** manual safety, dog safety, beavertail handle safety
- **Optics: Holosun HS407C-X2** 2 MOA red dot
- **Optical battery:** CR1632
- **Protection rating:** IP67

A 2011 platform designed for modern sport shooting

The **Tisas 2011 9DS** retains all the hallmarks of the **2011** platform: ergonomics, stability, and high capacity. The **full-frame** forged carbon steel receiver provides a solid and balanced base. In practice, this translates into exceptionally stable shooting performance, even during extended shooting sessions at the range.

The 17-round **double-stack** magazine increases capacity while maintaining the platform's characteristic grip. The **flared magazine well** facilitates rapid reloads, while the front and rear serrations improve bolt handling.

5-inch bull barrel

The 124 mm (5") **bull barrel** is one of the key elements in this weapon's accuracy. Unlike traditional barrels with bushings, this thickened profile ensures superior rigidity. The result: less vibration and more consistent firing.

Made from **forged steel** and treated for high durability, this barrel is designed to withstand sustained rates of fire while maintaining an excellent level of accuracy.

Optic Ready configuration with Holosun

This model comes with a **Holosun HS407C-X2** , a compact **red dot sight** renowned for its robustness and ease of use. Its **2 MOA** reticle allows for rapid target acquisition while maintaining accuracy suitable for sport shooting disciplines.

Shake Awake technology automatically activates the optics when the weapon is moved, optimizing battery life to up to **50,000 hours** . The integrated solar cell also adjusts the brightness according to the environment, improving visual comfort.

- **Reticle:** 2 MOA red dot
- **Dimensions:** 46 x 30 x 30 mm
- **Weight:** 41 g
- **Material:** 7075 aluminum
- **Brightness levels:** 12 (10 day / 2 night)
- **Operating temperature:** -10°C to 50°C

Optimized ergonomics and controls

The **Tisas 2011 9DS** features enlarged controls for easier handling. The ambidextrous safety lever, slide stop, and enlarged magazine release button make operation faster and more intuitive.

The **extended beaver tail** improves comfort and protects the hand when firing, while the **single-action trigger** with interchangeable profiles allows the trigger feel to be adapted to the shooter's preferences.

FAQ

Is this pistol compatible with other optics?

Yes. The model is designed in an optic-ready configuration compatible with RMR standard micro red dots. The Holosun HS407C-X2 optic is included with this version.

What type of charger does the 2011 platform use?

The 2011 pistols use double stack magazines, increasing capacity while maintaining good ergonomics for handling.

What are the purchasing conditions in France?

The 9x19 mm caliber pistol falls under category B. Its acquisition is subject to prefectural authorization and must be carried out through an authorized gunsmith.
