TSA105	TISAS Polymer Grip 2011 5''	Vente libre	320.00 € incl. tax

Robust polymer handle for 2011 Tisas chassis.

The **TISAS 2011 5" polymer grip** is a complete grip designed for the Turkish brand's 2011-type pistols. Its **reinforced polymer** construction offers an excellent balance of **lightness** , **strength** , and **ergonomics** for sport shooting.

- **Compatibility:** 2011 Platform
- **Length:** 5" (12.7 cm) format
- **Material:** Reinforced polymer
- **Texture:** Non-slip surface
- **Color:** Black
- **Assembly:** Compatible with Tisas 2011 carcass

A handle designed for the 2011 platform

On **2011** -style pistols, the grip is a key ergonomic element. This **TISAS polymer grip** is specifically designed for **5-inch** models, very popular in **sport shooting** and **dynamic shooting** . Its design retains the classic architecture of double-stack pistols inspired by the 1911, while incorporating the modern advantages of polymer.

Reinforced polymer: lightweight and strong

The choice of **reinforced polymer** reduces the overall weight of the weapon while maintaining excellent rigidity. In practice, this contributes to better weapon balance and increased comfort during long shooting sessions. This material also offers good resistance to mechanical stress and wear from regular use.

Anti-slip texture for optimal control

The textured surface ensures **effective grip** even when hands are wet or during extended firing sequences. This texture promotes **precise weapon control** and helps maintain a consistent grip, essential for maintaining accuracy and consistency in shooting.

Compatibility and integration

This **TISAS 2011 grip** is designed to fit the frames of the corresponding platform. It replicates the dimensions and ergonomics typical of the **2011 pistol** , allowing shooters and gunsmiths to replace or customize the grip while maintaining the balance and aesthetics of the firearm.

FAQ

Which pistols is this grip compatible with?

This grip is designed for 2011 Tisas pistols with a 5-inch barrel. Compatibility with other 2011 platforms may require adjustments by a gunsmith.

What is the advantage of a polymer handle?

The polymer allows for a lightweight and durable grip while maintaining good rigidity. It helps reduce the overall weight of the weapon and improves comfort during shooting.

Is this part intended for sport shooting?

Yes. 2011 pistols equipped with this type of grip are generally used for sport shooting and dynamic disciplines thanks to their ergonomics and double-column capability.
