- **Interface:** M-LOK on three sides
- **Material:** Fiberglass reinforced composite polymer
- **Installation:** Direct replacement of the original handguard
- **Length:** 187 mm
- **Width:** 49 mm
- **Height:** 55 mm
- **Weight:** 139 g
- **Color:** Black
- **Reference:** DLG-135

Modernizing a Remington 870 with modern ergonomics

The **DLG Tactical M-LOK Remington 870 Handguard** brings a modern evolution to one of **the most popular pump-action shotguns** . Its streamlined design improves grip and, most importantly, allows for easy accessory additions thanks to its M-LOK interface. For a sport shooter or gunsmith looking to modernize an 870, it's a simple and effective solution.

M-LOK interface on three sides

M-LOK slots are present on all three sides of the handguard, offering a wide range of configuration options. This allows for the installation of various equipment such as **a tactical light** , **foregrip** , **additional rail** , or other M-LOK compatible accessories. This modularity makes it easy to adapt

the rifle to the shooter's intended use or preferences.

Heat-resistant reinforced polymer

The handguard is made of **fiberglass-reinforced composite polymer** . This material combines **lightness** , **rigidity** , and **thermal resistance** . In practice, it withstands the stresses of use very well and maintains its stability even during prolonged firing sessions.

Compact dimensions and preserved balance

Weighing approximately **139 g** and measuring **187 mm** in length, this handguard remains remarkably lightweight. Its dimensions of **49 mm wide** and **55 mm high** ensure a comfortable grip without adding weight to the front of the weapon, thus preserving the natural balance of the Remington 870.

Simple installation

The **DLG Tactical handguard** is designed to **directly replace the original part** . Installation remains simple for a gunsmith or experienced user, without major platform modifications.

FAQ

Is this handguard compatible with all Remington 870s?

It is designed for Remington 870 pump-action shotguns. As with any accessory, certain specific variants or modifications may require adjustment by a gunsmith.

What accessories can be installed on this handguard?

Thanks to the M-LOK interfaces, it is possible to add compatible accessories such as a lamp, an additional rail or a front handle.

Is the polymer heat resistant?

Yes, the handguard is made of fiberglass-reinforced composite polymer, a material designed to withstand the heat generated when using the rifle.
