- **Width:** 47 mm
- **Height:** 55.5 mm
- **Weight:** 155 g
- **Reference:** DLG-145

An effective modernization for Mossberg

The **DLG Tactical M-LOK Mossberg 500/590 Handguard** provides a modern upgrade for **Mossberg** and **Maverick** shotguns. Designed to directly replace the original part, it improves grip while offering a modular platform for adding accessories.

M-LOK interface on three sides

M-LOK slots are located on the sides and lower part of the handguard. This configuration allows for the installation of various compatible accessories such as a **light** , an **accessory rail** , or a **foregrip** . The resulting modularity allows the rifle to be adapted to the shooter's needs.

Reinforced polymer construction

Made from **fiberglass-reinforced composite polymer** , this handguard offers an excellent balance between **lightness** and **mechanical strength** . This material is also designed to withstand the heat generated during use, ensuring long-term durability.

Dimensions designed for a good grip

Measuring **206.5 mm** in length, **47 mm** in width, and **55.5 mm** in height, this handguard offers a comfortable grip. Weighing approximately **155 g,** it maintains the rifle's natural balance while improving handling.

Simple installation

The **DLG Tactical handguard** directly replaces the original handguard of the **Mossberg 500** , **Mossberg 590** and **Maverick 88.** Installation remains quick and generally does not require any modification to the weapon.

FAQ

Which rifles is this handguard compatible with?

This model is designed for the Mossberg 500, Mossberg 590 pump-action shotguns as well as the Maverick 88.

What accessories can be installed on this handguard?

Thanks to the M-LOK interfaces, it is possible to add various compatible accessories such as a lamp, a rail or a front handle.

Is the material heat resistant?

Yes, the handguard is made of fiberglass-reinforced composite polymer, a material designed to offer good thermal and mechanical resistance.
