- **Initial velocity:** 715 m/s
- **Magazine capacity:** 10 rounds
- **Compatibility:** AK 30-round magazines
- **Optical mounting:** integrated side rail

- **Total length:** 880 mm
- **Barrel length:** 415 mm
- **Weight:** 3 kg
- **Thread:** M14x1 L

An AK platform designed for sport shooting

With this polymer version, **WBP** offers a modern and accessible interpretation of the famous **AK47** system. From the moment you pick it up, you'll experience that typical feeling of mechanical robustness that has made the platform famous worldwide. The semi-automatic design allows for use in accordance with the civilian market and is geared towards **recreational** or **dynamic shooting** .

Robust construction made of stamped sheet metal

The stamped steel frame retains the AK's historical design. This manufacturing process offers an excellent balance between strength, low weight, and durability. In practice, this translates into a particularly reliable weapon, even during sustained use at the shooting range.

Modern and functional polymer furniture

The fixed stock, pistol grip, and polymer handguard offer a significant weight reduction while improving user comfort. This type of equipment is highly resistant to climatic variations and requires minimal maintenance. The overall balance of the weapon is immediately apparent; it remains comfortable to shoulder despite its generous size.

Threaded barrel and accessory compatibility

The 415mm barrel offers good ballistic stability with the **7.62x39mm** caliber. Its **M14x1 L** thread allows for the mounting of various compatible accessories according to current regulations. The integrated side rail also facilitates the installation of optics or a specific AK mount, a real advantage for customizing the configuration to the shooter's preferences.

An AK mechanism true to its reputation

The long gas-operated system typical of the AK platform remains popular for its simplicity and high tolerance to harsh conditions. This mechanical architecture immediately inspires confidence: smooth fuel supply, accessible maintenance, and proven operation... it's exactly the kind of platform one chooses for its consistency and mechanical realism.

Additional features

- **Origin:** Poland
- **Manufacturer:** Wytwornia Broni Jacek Popinski
- **Platform type:** AK
- **Side rail:** compatible with AK optical mount
- **Architecture:** traditional AK system
- **Use:** sport shooting and recreational shooting

FAQ

Is this rifle compatible with standard AK magazines?

Yes, this version accepts compatible AK magazines in 7.62x39 mm caliber, including 30-round models according to applicable regulations.

Can a lens be mounted on this platform?

Yes, the integrated side rail allows the installation of a specific AK mount to add a compatible scope or red dot sight.

What type of use is suitable for this model?

This semi-automatic rifle is primarily intended for sport shooting, recreational shooting, and enthusiasts of modern AK platforms.
