A .22LR platform designed for training

Inspired by modern shooting platforms, this rifle allows you to practice your fundamentals with **reduced recoil** and controlled operating costs. In practice, it offers a feel similar to a standard platform, ideal for stringing together sessions without constraints.

Canon 10.5" compact and threaded

The **short 10.5-inch barrel** made of 4140 steel offers an excellent balance between **maneuverability** and **accuracy** . Its **1/2x28 threading** allows for the addition of compatible

accessories, providing even greater versatility for various uses.

AR ergonomics and broad compatibility

The handling is immediately appealing: **telescopic stock** , accessible controls, and a familiar design. Even better, compatibility with numerous **AR-15 accessories** opens the door to extensive customization, from recreational shooting to dynamic shooting.

M-LOK handguard and Picatinny rail

The **M-LOK aluminum handguard** allows for easy addition of accessories (grip, light, etc.). The **top Picatinny rail** , meanwhile, allows for the mounting of optics or sights according to the shooter's preferences.
