- **Materials:** wood and metal
- **Function:** Loading and firing simulation mechanism
- **Period:** American Civil War (1861-1865)
- **Type:** non-functional reproduction

An icon of the American Civil War

Immerse yourself in the world of 19th-century conflicts with this **replica Sharps rifle** . Widely used during the **American Civil War** , this **falling-block** rifle made its mark on the era with its reliability and rapid fire. This reproduction allows you to relive these historical moments realistically, without the limitations of an authentic firearm.

Realistic mechanics and immersion

This model incorporates a loading and firing **simulation mechanism** . In practice, the smooth handling and realism of the system, which faithfully reproduces the original operation, are immediately apparent. This detail makes all the difference during **historical reenactments** or educational presentations.

Wood and metal manufacturing

The combination of **real wood** and **metal** provides an authentic look and a convincing grip. The balanced weight enhances the feeling of realism, whether for display or use in costume.

A collector's and decorative item

This reproduction naturally finds its place in a **collection of antique weapons** or as a decorative piece in a historically styled interior. It attracts the eye while telling a true story of history.

FAQ

Is this rifle functional?

No, this is a decorative reproduction with a simulated mechanism, without any real firing capability.

Can it be used for historical reenactments?

Yes, it is perfectly suited for reenactments thanks to its realism and simulated mechanism.

What kind of maintenance should be planned?

Regular dusting and light wood maintenance are sufficient to preserve its appearance.
