Extreme precision for long-range shooting in .338 caliber.

The **SIERRA MatchKing 338 300gr HPBT** is a precision shooting bullet designed for magnum calibers, offering exceptional consistency and ballistic performance.

- **Caliber:** .338
- **Weight:** 300 grains / 19.4 g
- **Type:** HPBT (Hollow Point Boat Tail)
- **Ballistic coefficient G1:** 0.768
- **Ballistic coefficient G7:** 0.383
- **Use:** Precision shooting / Match
- **Packaging:** Box of 50

A benchmark in long-range shooting

Developed in the purest **MatchKing** tradition, this **300-grain** bullet is designed for shooters seeking maximum accuracy at very long ranges. It is particularly well-suited to magnum calibers such as the .338 Winchester Magnum or the .338-378 Weatherby.

Optimized HPBT profile

Its **Hollow Point Boat Tail** design ensures excellent flight stability and reduced drag. The high ballistic coefficient helps maintain speed and energy over long distances, while minimizing the influence of wind.

Consistent ballistic performance

Thanks to its rigorous manufacturing and proven design, this bullet guarantees exceptional consistency. It is typically the choice of demanding shooters in competition or long-distance training.

Compatibility and technical requirements

To fully exploit its performance, a barrel with a minimum twist rate of **1:10"** is required. This requirement ensures optimal stabilization of this heavy projectile.

Dedicated use for sport shooting

Designed exclusively for **precision shooting**, this bullet is not intended for hunting. Its structure prioritizes stability and consistency over expansion upon impact.

Additional features

- **Material:** Jacketed lead core
- **Bullet type:** Non-tipped
- **Manufacturer reference:** #9300T
- **UPC:** 092763393000

FAQ

Is this bullet suitable for hunting?

No, it's designed for precision shooting and competition. Its expansion is not optimized for hunting use.

What type of cannon is recommended?

A barrel with a minimum twist rate of 1:10" is required to properly stabilize this 300-grain bullet.

What calibers is this bullet designed for?

It is designed for .338 calibers, including magnum cartridges such as the .338 Winchester Magnum.
