Specially developed for the hare

The **Rottweil Game Edition Hare** takes into account the behavior of game: fast, unpredictable, and often shot on the move. It offers an **energy density** adapted to ensure optimal effectiveness even when shooting conditions are less than ideal.

Balanced power and coverage

With a **36g** lead shot load, this cartridge offers an excellent compromise between **penetration** and **dispersion** . In practice, this allows for effective coverage of a firing area while maintaining sufficient energy upon impact.

Skirted wadding for a controlled sheaf

The **wad with a skirt** promotes a more structured and regular shot pattern, limiting excessive dispersion. It is a relevant choice for maintaining accuracy while remaining effective at typical hunting distances.

A cartridge that is forgiving on the field

The Game Edition range is designed to offer a certain **margin of effectiveness** . In other words, even if the shot is slightly off or the game suddenly accelerates, the cartridge retains good coverage - a real advantage in action.
