Reliability and precision for dynamic sport shooting.

GECO Dynamic Bird Shot 31g 12/65 are **sporting cartridges** designed to offer a tight pattern and reliable operation, ideal for dynamic disciplines.

- **Lead number:** 5
- **Load weight:** 31 g
- **Use:** Dynamic sport shooting (IPSC, clay targets)
- **Functionality:** Compatible with semi-automatic machines
- **Sheaf:** Tight (bucket with raised edges)
- **Decline:** Moderate
- **Packaging:** Box of 25

Developed for dynamic shooting

The **GECO Dynamic Bird Shot 31g** is designed for disciplines such as **IPSC** or clay pigeon shooting. It offers excellent responsiveness and **smooth execution** , ideal for fast-paced sequences where every shot counts.

Tight spray pattern and effectiveness at different distances

Thanks to its **raised-rim cup** , the shot pattern remains compact, improving accuracy on a variety of targets. This design ensures **even coverage** while maintaining good impact energy.

Reliable semi-automatic operation

The loading process has been optimized to ensure **consistent cycling** in semi-automatic rifles. In practice, this reduces malfunctions and allows for a full focus on performance.

Controlled shooting comfort

With **moderate recoil** , this cartridge offers good comfort, even during long training sessions. This is a key factor in maintaining accuracy and speed throughout the course of a shoot.

- **Discipline:** IPSC Shotgun, training
- **Weapon type:** 12 gauge smoothbore shotgun
- **Use:** Competition and training

- **Reference:** 2400234

FAQ

Is this cartridge suitable for semi-automatic rifles?

Yes, it is specifically designed to ensure reliable operation in semi-automatic rifles.

What type of shooting is it recommended for?

It is ideal for dynamic sport shooting, including IPSC and clay target shooting.

What is the advantage of the bucket with raised edges?

It helps to maintain a tighter shot pattern, improving the accuracy and consistency of impacts.
