Reliable feeding of wide primers for Pro 1000 presses.

The **Lee Precision TR2164B Large Primer Trough** is a **primer feed tray** designed for **Pro 1000** presses (models 1984 to 2022), ensuring smooth and even dispensing.

- **Compatibility: Lee Precision Pro 1000** (1984-2022)
- **Type:** Large bait tray
- **Reference:** TR2164B
- **Function:** Primer feeding
- **Use:** Reloading ammunition
- **Installation:** Simple replacement of the original part

Dedicated compatibility with Pro 1000 presses

The **TR2164B** is specifically designed for **Lee Precision Pro 1000** presses produced between 1984 and 2022. It integrates perfectly into the existing system, without modification, to restore optimal operation.

Reliable feeding of wide primers

This tray allows for a **wide and even distribution of primers** , essential for ensuring a smooth reloading cycle. In practice, this reduces interruptions and improves production speed.

Simple and effective replacement

Ideal as a replacement part, it easily installs in place of the original component. This is typically the component that is replaced to maintain the **reliability** and **accuracy** of the reloading station.

Optimization of the charging station

A primer tray in good condition ensures better flow of primers and reduces the risk of mishaps. A detail that makes all the difference during long **reloading** sessions.

- **Primer type:** Large primers
- **Use:** Reloading ammunition
- **Category:** Press spare part
- **Manufacturer:** Lee Precision

FAQ

Is this tray compatible with all Pro 1000 models?

It is compatible with Pro 1000 models manufactured between 1984 and 2022.

What is the purpose of this component?

It allows for the regular feeding of wide primers into the reloading press.

Is this an original part?

Yes, this is an official Lee Precision part guaranteeing compatibility and reliability.
