A 12-hour edit dedicated to ACRO optics

The **Scalarworks KICK/07** allows you to add a **red dot sight** directly above your scope. This **12 o'clock** position provides an immediate transition between magnified and reflex sighting-a simple head adjustment is all it takes. In practice, this increases shooting speed without disrupting your shooting position.

Two heights for a customized adjustment

Available in **low (SW3500 - 14 mm)** and **high (SW3520 - 27 mm)** versions, this mount allows for precise height adjustment of the **ACRO red dot sight** . This choice directly impacts visual comfort and the overall ergonomics of the platform.

Targeted compatibility and seamless integration

The **KICK/07** is specifically designed for **Aimpoint ACRO** optics (P-2, C-2, P-1) as well as the **Steiner MPS** . It integrates perfectly with **Scalarworks FUSE/02 and FUSE/03** mounts, ensuring a rigid and perfectly aligned attachment.

Robust construction and high-end finish

Machined from **7075-T6 aluminum** with **4140H steel** reinforcements, this mount combines lightness and strength. **Type III** anodizing combined with **Flash Nitride** treatment ensures excellent wear resistance. Weighing only **13 to 23 g** , it remains discreet while being extremely reliable.

FAQ

Is this setup compatible with other red dots?

No, it is specifically designed for optics conforming to the Aimpoint ACRO and Steiner MPS standards.

Which height should I choose: low or high version?

The low version prioritizes compactness, while the high version offers better visual comfort depending on your configuration.

Which Scalarworks setups is it compatible with?

It is compatible with Scalarworks FUSE/02 and FUSE/03 assemblies only.
