Ultra-compact tilting mount to enhance Eotech.

The **Scalarworks LEAP/16** is a flip-to-side mount designed for **Eotech** standard magnifiers, offering lightness, robustness and quick removal on **Picatinny** rail.

- **Rail compatibility:** MIL-STD-1913 Picatinny
- **Magnifier compatibility:** Eotech G33, G43, G45, Trijicon 3X, Vortex Micro3X
- **Interface:** Footprint Eotech
- **Available heights:** 1.57" (40 mm), 1.93" (49 mm), 2.26" (57 mm)
- **Materials:** 7075-T6 Aluminum / 4140H Steel
- **Finish:** Type III Anodizing / Flash Nitride
- **Weight:** 55 to 59 g depending on the version
- **Origin:** United States

Box contents

- **Support:** Scalarworks® LEAP™
- **Screws:**
  - (2) #8-32 screw with nylon patch
- **Tools :**
  - Scalarworks® T25 Torx Bit

A flip-to-side assembly designed for performance

The **Scalarworks LEAP/16** allows for quick side-mounted **magnifier** switching between magnified and direct line-of-sight viewing. The mechanism utilizes a **4mm** ball bearing system, ensuring a secure and durable lock, even after numerous cycles of use.

Discreet and efficient Quick-Detach system

Thanks to the **ClickDrive** system, this mount can be quickly attached and removed without any protruding levers. Its low profile-less than **7 mm** overhang on each side-prevents snagging and facilitates handling. In practice, nothing interferes with gripping or using the platform.

Optimized ergonomics at 45°

The **45°** angle allows the magnifier to be folded while protecting the adjustment turrets inside the mount. This clever design improves compactness and reduces the risk of impact or snagging on equipment.

Three heights to suit your configuration

Available in **1.57" (40 mm)** , **1.93" (49 mm)** , and **2.26" (57 mm)** , the **LEAP/16** allows you to perfectly align your magnifier with your main optic. This choice is essential to guarantee visual comfort and efficiency in the field.

Robust construction and lightweight

Machined from **7075-T6 aluminum** with **4140H steel** components, this assembly offers excellent mechanical strength. **Type III** anodizing and **Flash Nitride** treatment ensure optimal durability, while maintaining a low weight of between **55 and 59 g** .

FAQ

Is this setup compatible with all magnifiers?

It is compatible with Eotech standard magnifiers as well as some compatible Trijicon and Vortex models.

What height should I choose?

The choice depends on the height of your main optic to ensure perfect alignment.

Is the Quick-Detach system reliable?

Yes, the ClickDrive system ensures secure locking while allowing quick tool-free disassembly.
