Ultra-light QD mount for Trijicon ACOG optics.

The **Scalarworks LEAP/14** is a quick-detach mount dedicated to **Trijicon ACOG 4x32** optics, offering an ultra-light, robust and perfectly repeatable **Picatinny** rail mount.

- **Optical compatibility:** Trijicon ACOG 4x32
- **Rail compatibility:** MIL-STD-1913 Picatinny
- **Optical axis height:** 1.93" (approximately 49 mm)
- **Materials:** 7075-T6 Aluminum / 4140H Steel
- **Finish:** Type III Anodizing / Flash Nitride
- **Weight:** 47 g
- **Origin:** United States

Box contents

- **Media:** Scalarworks® LEAP/14™
- **Screws:**
  - (2) #10-32x5/8" screw with nylon patch
- **Tools :**
  - Scalarworks® T25 Torx Bit

A mount specifically designed for ACOG optics

The **Scalarworks LEAP/14** is designed specifically for **Trijicon ACOG 4x32** optics. Its compact design and optimized profile allow for perfect integration on **Picatinny** rails, with exemplary rigidity.

Height 1.93" for modern ergonomics

With an optical axis height of **1.93"** , this mount promotes a more natural and comfortable shooting position. This configuration is particularly appreciated for improving acquisition speed and reducing

fatigue during extended shooting sessions.

ClickDrive Quick-Detach System

The **ClickDrive** mechanism allows for quick, tool-free assembly and disassembly, while ensuring a reliable **return to the zero position** . The low-friction knurled screw system provides secure fastening by hand only, without the need for a bulky lever.

Scalable platform with KICK extension

The **1.93"** height allows for the addition of a **secondary red dot sight** via **KICK** extensions, transforming the setup into a hybrid **1x/4x** configuration. An ideal solution for increased versatility in the field.

Ultra-light and robust construction

Machined from **7075-T6 aluminum** , the **LEAP/14** offers an excellent strength-to-weight ratio. At only **47g** , it ranks among the lightest ACOG rigs on the market, without compromising on strength.

FAQ

Is this setup compatible with all ACOGs?

It is designed for Trijicon ACOG 4x32 optics with a standard footprint.

Does the Quick-Detach system retain the setting?

Yes, the ClickDrive system guarantees a reliable return to zero after disassembly.

Can a secondary red dot be added?

Yes, via compatible KICK extensions for a hybrid configuration.
