A mount specifically designed for Holosun AEMS optics

The **Scalarworks LEAP/11** is specifically designed for **Holosun AEMS** optics. Its design ensures seamless integration onto **Picatinny** rails, with a stable and durable mount.

Height 1.93" for modern ergonomics

With an optical axis height of **1.93"** , this mount promotes a more natural and comfortable shooting position. This configuration is particularly appreciated for improving target acquisition speed and comfort during dynamic shooting.

ClickDrive Quick-Detach System

The **ClickDrive** mechanism allows for quick, tool-free assembly and disassembly, while ensuring a reliable **return to the zero position** . The system provides secure fastening using only your hands, without the need for a cumbersome lever.

Optimized construction and maximum resistance

Machined from **7075-T6 aluminum** on six sides, the **LEAP/11** offers an excellent stiffness-to-weight ratio. Stress testing and **FEA** analysis have optimized every gram to ensure strength and durability.

Compact profile and smooth handling

With its symmetrical design and no protruding elements, this assembly minimizes snags and improves the fluidity of handling. In practice, nothing hinders the use of the platform.
