Height 2.26" for advanced ergonomics

With an optical axis height of **2.26"** , this mount promotes a more upright shooting position, particularly suited to modern equipment. This improves comfort and acquisition speed.

Modular and scalable platform

The **LEAP/02** incorporates mounting points allowing the addition of **KICK/09** extensions. This makes it possible to add a **magnifier** , a laser module or a combined configuration as needed.

ClickDrive Quick-Detach System

The **ClickDrive** mechanism allows for quick, tool-free assembly and disassembly, while ensuring a reliable **return to zero** . Its compact design minimizes protruding parts.

Lightweight and sturdy construction

Machined from **7075-T6 aluminum** , the **LEAP/02** offers an excellent strength-to-weight ratio. At only **63g** , it ranks among the lightest 2.26" mounts on the market.

Extended compatibility

This mount is compatible with many **Micro** format optics, including Aimpoint, Holosun, Primary Arms, Sig Sauer or Vortex, offering great versatility.

FAQ

Is this setup compatible with brands other than Aimpoint?

Yes, it is compatible with many Micro format lenses such as Holosun, Sig Sauer or Vortex.

Can a magnifier or a laser be added?

Yes, thanks to the compatible KICK/09 extensions allowing for modular configuration.

Does the Quick-Detach system retain the setting?

Yes, the ClickDrive system guarantees a reliable return to zero after disassembly.
