- **Treatment:** anodizing
- **Mounting:** M14x100 thread
- **Design:** detachable one-piece

- **Noise reduction:** 30 to 33 dB
- **Maximum caliber:** .30 (7.92 mm)
- **Diameter:** 50 mm
- **Length:** 180 mm
- **Weight:** 400 g

A discreet ally for hunting

In the field, the **SL50** clearly makes a difference. Its ability to reduce noise by **30 to 33 dB** helps preserve the sound environment and improve shooter comfort. In practice, this translates to greater discretion-a key factor during stalking or driven hunts.

Less backpedaling, more control

This **sound moderator** doesn't just reduce noise. It also reduces **felt recoil** , which improves weapon stability. The result: better accuracy and faster target acquisition, especially useful for a second shot.

Compact size perfectly suited to the terrain

At **180 mm** long and weighing **400 g** , it remains discreet at the muzzle. The weapon's balance is maintained, even when moving. It easily adapts to firearms with or without sights - a real advantage

for various hunting configurations.

Robustness and ease of maintenance

Made from **aircraft-grade aluminum** with a durable **anodized finish** , it withstands outdoor conditions without difficulty. Its **one-piece, detachable** design allows for simple, quick, and above all, effective cleaning after each outing.

Compatibility and modularity

The included **M14x100** thread allows for immediate installation. Compatible with **threaded modules and rings** , it can be adapted to your needs. A smart choice for equipping multiple weapons without multiplying accessories.

FAQ

Is this moderator suitable for hunting?

Yes, it is specifically designed for hunting with effective noise reduction, a low weight and good discretion in action.

Can it be used on multiple weapons?

Yes, thanks to its threaded rings and modular design, it can adapt to different compatible weapons.

Will it change the weapon's balance?

Its limited weight and compact size allow it to maintain good balance, suitable for field use.
