Traditional percussion rifle, robust and accurate for hunting.

The **Pedersoli Great Hawken Hunter Percussion** is a **black powder rifle** combining tradition and modern performance for **hunting** .

- **Sights:** fiber optic rear sight, barleycorn front sight
- **Trigger:** double trigger
- **Stock:** walnut with an oiled finish
- **System:** percussion

- **Caliber:** .50
- **Barrel length:** 30" octagonal
- **No scratches:** 1:24
- **Number of stripes:** 7
- **Total length:** 47"
- **Weight:** 4.2 kg

A rifle inspired by the original Hawken rifles

The **Great Hawken Hunter** echoes the iconic lines of 19th-century American rifles. The **oiled walnut stock** , meticulous finishing, and case-hardened lock plate immediately set the tone: a traditional weapon... designed for real-world hunting use.

high-performance octagonal barrel

Its **30" octagonal barrel** provides rigidity and consistency. The fast **1:24** twist rate allows the use of modern projectiles, offering excellent accuracy for **black powder hunting** .

Effective and scalable targeting

The **fiber optic rear sight** improves visibility in varying conditions, while the **front sight** ensures rapid target acquisition. The weapon is also **pre-drilled and tapped** to accept a Lyman 57 GPR-type diopter sight.

Double trigger for greater precision

The **double set trigger** system allows for a very crisp, light trigger pull. In practice, this is a real advantage for stationary or medium-range shots, where accuracy is essential.

Designed for the field

With its substantial weight and robust construction, this rifle offers excellent stability. It is perfectly suited for outdoor use, with consistent reliability shot after shot.

Additional features

- **Platinum:** mottled finish
- **Finish:** brown tan
- **Compatibility:** Lyman 57 GPR diopter
- **Use:** hunting and black powder shooting

FAQ

Is this rifle suitable for hunting?

Yes, it is designed for black powder hunting with excellent accuracy and good stability.

What type of projectiles should be used?

The 1:24 rifling twist rate allows the use of modern projectiles suitable for black powder.

Can a diopter be added?

Yes, it is designed to receive a Lyman 57 GPR diopter sight to improve accuracy.
