A premium compact replica equipped with GATE ASTER 2 for ultra-modern responsiveness.

The SLR Rifleworks LT Gen 4 SD9 ASTER is a high-end **airsoft AEG** replica developed by **Lancer Tactical** , designed to offer speed, accuracy, and advanced customization. Featuring the GATE ASTER 2 Bluetooth electronic system and a reinforced metal alloy construction, it meets the expectations of demanding players looking for a modern and high-performance platform.

- **Material:** Metal alloy
- **Gearbox:** Gen 4
- **Gears:** Ratio 16:1
- **Engine:** 25K RPM
- **Firing modes:** Safe, semi-automatic, automatic
- **Power:** 1 Joule with 0.20g BBs
- **Internal barrel:** 6.03 mm Tight Bore
- **Hop-up:** Adjustable CNC rotary
- **Mosfet:** GATE ASTER 2 Bluetooth programmable
- **Trigger:** Adjustable Quantum Trigger
- **Connector:** Deans
- **Stock:** Adjustable NSR with rubber butt plate
- **Magazine:** Mid-Cap 140 rounds APM
- **Rail:** Superior monolithic Picatinny
- **Handguard:** M-LOK SLR Rifleworks CNC
- **Color:** Matte Black

A premium compact platform

The SD9 format offers excellent maneuverability in CQB environments while maintaining effective stability on mixed terrain. The officially licensed **SLR Rifleworks** CNC-machined handguard,

combined with the SD mock suppressor, provides a particularly realistic, modern look. From the moment you pick it up, you immediately feel a more rigid and premium platform.

GATE ASTER 2 Bluetooth and Quantum Trigger

The **GATE ASTER 2** electronic system literally transforms the gaming experience. Thanks to its Bluetooth programming, it becomes possible to adjust various firing parameters directly via a compatible app. The adjustable Quantum Trigger, meanwhile, improves the speed and feel of the trigger pull, offering responsiveness that is particularly appreciated in semi-automatic mode.

High-responsive Gen 4 gearbox

The Gen 4 gearbox, combined with the 25K RPM motor and 16:1 gearing, ensures a fast and smooth cycle. This configuration delivers an excellent rate of fire while maintaining balanced performance. In practice, this translates to crisp and consistent shots, particularly effective in close-quarters combat.

Tight Bore barrel and CNC hop-up

The **6.03 mm Tight Bore** inner barrel improves trajectory consistency, while the rotating CNC hop-up chamber allows for precise adjustments. This combination optimizes shot stability and promotes greater consistency at medium range.

Complete ambidextrous ergonomics

This platform features fully ambidextrous controls: selector switch, charging handle, QD backstrap, and functional bolt lock. Front and rear QD attachment points also facilitate the installation of a tactical sling suited to the player's style.

Modern and scalable configuration

The monolithic Picatinny rail allows for the mounting of numerous accessories such as a red dot sight, compact optics, or folding sights. The Faxon Flip-Up sights with rapid deployment further enhance the operational capabilities of this configuration.

- **Style:** Premium compact SD SLR
- **Use:** CQB and multi-purpose field
- **Electronics:** GATE ASTER 2 Bluetooth
- **Transmission:** Gearset 16:1
- **Connector:** Deans
- **Compatibility:** Picatinny and M-LOK accessories

FAQ

What is the advantage of the GATE ASTER 2 Bluetooth?

The GATE ASTER 2 improves responsiveness, protects internal electronics and allows programming of multiple firing parameters via a compatible Bluetooth connection.

Is this replica suitable for CQB?

Yes, its compact size, high responsiveness and maneuverability make it particularly effective in CQB environments and dynamic games.

What accessories can be mounted on this platform?

The Picatinny rail and M-LOK handguard allow for the installation of compatible optics, lights, grips, lasers or other tactical accessories.
