MW3010	Winchester Copper Impact Slug 12/70 28g	C	cal. 12	70 mm	487	Bullet	5	28	32.00 € incl. tax

## A powerful and accurate lead-free copper slug for short and medium range shooting.

The **Winchester Copper Impact Slug 12/70** is a **12 gauge** cartridge equipped with a lead-free monolithic copper bullet designed to offer optimal accuracy, penetration and energy transfer.

- **Caliber:** 12/70
- **Bullet type:** Monolithic copper slug with polymer tip
- **Projectile:** lead free (Lead Free)
- **Projectile weight:** 28 g
- **Speed:** up to 487 m/s
- **Material:** copper
- **Packaging:** box of 5 cartridges
- **Use:** Short and medium-range precision shooting

### A modern slug designed for performance

This ammunition was developed for **12-gauge shotgun** users looking for a high-performance slug at short and medium ranges. From the very first shots, its flat trajectory and ability to maintain excellent ballistic stability are immediately apparent.

The monolithic copper design preserves the projectile's integrity upon impact while ensuring effective penetration. This is a particularly attractive option in areas where the use of lead-free ammunition is mandatory.

### Copper projectile with polymer tip

The **Winchester Copper Impact Slug** uses a monolithic copper bullet equipped with a polymer tip, promoting rapid and controlled expansion. This design improves energy transfer while maintaining good mass conservation.

In practice, this combination provides consistent impact behavior and excellent accuracy for **hunting** or **sport shooting** requiring high-performance slug ammunition.

### **High speed and consistent accuracy**

With a velocity of up to 487 m/s depending on the configuration, this cartridge delivers significant energy and a flatter trajectory than a traditional slug. Winchester's manufacturing quality also contributes to maintaining remarkable consistency from one cartridge to the next.

Its robust design allows for repeated use without compromising reliability. Users looking for modern and technically advanced ammunition will find an excellent balance between power, accuracy, and ease of use.

- **Caliber:** 12/70
- **Projectile:** monolithic copper
- **Tip:** polymer
- **Type:** lead-free slug
- **Usage:** short and medium distance
- **Compatibility:** 12 gauge smoothbore shotguns
- **Packaging:** box of 5

### **FAQ**

#### **Is this cartridge lead-free?**

Yes, the Winchester Copper Impact Slug uses a lead-free, monolithic copper projectile with a polymer tip.

#### **What type of rifle is this slug designed for?**

This ammunition is intended for 12 gauge shotguns chambered in 12/70 equipped with a smoothbore barrel compatible with slug firing.

#### **What are the advantages of the monolithic copper projectile?**

Monolithic copper promotes good mass retention, efficient penetration and controlled expansion while meeting lead-free regulations.
