3D camouflage gloves offering discretion, comfort and grip in the field.

The **JACK PYKE LLCS 3D Gloves** perfectly complement camouflage gear thanks to their realistic 3D pattern and lightweight design suitable for outdoor activities.

- **Camouflage system:** LLCS 3D
- **Pattern:** English Oak Evolution
- **Design:** 3D leaves on the back of the hand and fingers
- **Palm:** Non-slip resin dots
- **Cuffs:** Spandex elasticated ribbing
- **Material:** 80% polyester, 20% spandex
- **Sizes:** M/L, XL/XXL

Effective camouflage down to the smallest detail

When it comes to remaining discreet in the natural environment, the hands are among the most visible areas. The **JACK PYKE LLCS 3D Gloves** incorporate 3D sheets with an **English Oak Evolution** pattern on the backs of the hands and fingers to break up the contours and improve camouflage in wooded environments.

Enhanced grip on the terrain

The resin studs on the palm provide a significant increase in control when handling equipment or accessories in wet conditions. This non-slip surface improves grip while maintaining good sensitivity of movement.

Comfort and flexibility for everyday use

The combination of polyester and spandex provides a lightweight feel while enhancing the glove's elasticity. The stretchy cuffs ensure a comfortable fit and allow for quick donning. Once on, they quickly become unnoticeable, even during extended use.

The perfect complement to the LLCS 3D range

These gloves integrate naturally with the entire **JACK PYKE LLCS 3D range** of equipment. Combined with a balaclava, cap or camouflage outfit from the same range, they provide homogeneous concealment, particularly appreciated during observation or stakeout activities.

Additional features

- **Uses:** Hunting, wildlife observation, nature photography, outdoor activities
- **Operation:** Silent during movement
- **Adjustment:** Stretchable cuffs for a comfortable fit
- **Compatibility:** JACK PYKE LLCS 3D range

FAQ

Are these gloves suitable for wet conditions?

Yes, the resin studs on the palms improve grip when weather conditions are wet or surfaces are slippery.

What equipment can they be used with?

They perfectly complement other JACK PYKE LLCS 3D products such as the balaclava, cap or camouflage outfit in the range.

Are these gloves suitable for wildlife observation?

Yes, their lightweight, silent and camouflaged design makes them particularly suitable for nature observation and wildlife photography.
