- **Top rail:** Weaver / Picatinny 21 mm
- **Height A:** 20 mm
- **Actual height increase:** +17 mm (20 mm - 3 mm recess)
- **Width B:** 21 mm
- **Weight:** 53 g
- **Retaining lug:** Removable
- **Use:** Air rifles and rimfire rifles (.22 LR)

Convert an 11mm rail into a Picatinny interface

The **Sports Match RB5 adapter rail** allows you to equip a firearm with an 11mm rail with any accessory using a **21mm Weaver/Picatinny** interface. It provides a simple solution for mounting modern optics without permanent modifications to the firearm.

Compatible with many accessories

Thanks to its Weaver/Picatinny profile, it easily accommodates a **riflescope** , a **red dot sight** , a **night vision device** , a **rangefinder** or any other accessory compatible with this standard.

Reliable hold thanks to the locking lug

The **removable locking lug** improves mounting stability by limiting accessory movement due to vibration or recoil. It can be removed when the weapon configuration does not require its use.

Lightweight and sturdy construction

Weighing only **53g** , this adapter provides a robust solution while minimizing added weight to the weapon. Its design ensures excellent accessory retention while maintaining good ergonomics.

FAQ

Is this rail compatible with all 11mm rail rifles?

Yes, it is designed for weapons equipped with a standard 11mm prismatic rail, including air rifles and many rimfire rifles.

What accessories can be installed?

All accessories compatible with a 21mm Weaver or Picatinny rail, such as rifle scopes, red dot sights, night vision systems or rangefinders.

What is the purpose of the stop lug?

It prevents the mount from shifting on the rail and improves the stability of the optic. It can be removed if the weapon does not have a designated slot for it.
