- **Adapter reference:** Powder Measure Bottle Adapter 91586
- **Function:** Powder flow management
- **Installation:** direct replacement
- **Origin:** Original Lee Precision part

An essential component for powdered food

The **Lee Valve & Screw Powder Measure Adapter** is designed to replace the original components installed on the Lee bottle adapter. These components contribute to the proper functioning of the powder feeding system and help maintain consistent use of the powder measure.

Compatible with several Lee dosing units

This kit has been designed to work with several popular models in the **Lee Precision** range. It is compatible with the **Auto-Drum** , **Deluxe Perfect Powder Measure** , and **Classic Powder Measure powder measure** using bottle adapter part number 91586.

Simple and economical maintenance

When a part is worn or damaged, replacing it maintains the equipment's performance without having to replace the entire system. This solution is particularly appreciated by chargers who want to keep their equipment in perfect working order.

Original Lee Precision design

Manufactured to the manufacturer's specifications, the valve and screw ensure a proper fit with compatible equipment. They can be installed quickly during routine maintenance.

Additional features

- **Category:** Spare part for dosing machine
- **Use:** maintenance and repair
- **Compatibility:** Lee 91586 bottle adapter
- **Manufacturer:** Lee Precision
- **Packaging:** valve and screw

FAQ

What is the purpose of this bottle adapter valve?

It participates in the operation of the powder feed system installed on the Lee-compatible bottle adapter.

Which Lee dosing machines is this part compatible with?

It is compatible with Auto-Drum, Deluxe Perfect Powder Measure and Classic Powder Measure dispensers using bottle adapter reference 91586.

Is this a genuine Lee Precision part?

Yes, this kit includes original components designed to directly replace parts installed on compatible equipment.
