Extreme weight for the most demanding precision airsoft replicas.

BLS Precision BBs 0.48g White 1000 pcs are designed for users seeking maximum flight stability and excellent shooting consistency. Made from high-quality composites and carefully polished, they are particularly suited to airsoft replicas equipped with precision barrels.

- **Weight:** 0.48 g
- **Packaging:** bag of 1000 marbles
- **Color:** white
- **Type:** precision marbles
- **Diameter:** 5.95 mm \pm 0.01 mm
- **Material:** High-quality plastic composite
- **Manufacturer reference:** 1BA-H48
- **Compatibility:** AEG, GBB and gas-powered replicas

A high grammage to maximize stability

BLS Precision BBs 0.48g White 1000 pcs are designed for players seeking maximum stability. Thanks to their significant mass, they retain more kinetic energy and offer a more consistent trajectory in demanding playing conditions. This BB weight is particularly appreciated in replicas optimized for long-range accuracy.

High-quality manufacturing

Made from select plastic composites, these BBs undergo meticulous polishing to ensure a uniform surface. This finish reduces irregularities that could affect flight behavior and helps maintain excellent shooting consistency. This difference is quickly noticeable during tuning and precision shooting sessions.

Ultra-rigorous dimensional tolerance

The controlled diameter of 5.95 mm with a tolerance of only \pm 0.01 mm ensures optimal compatibility with modern hop-up units and **precision barrels**. This consistency helps reduce variations between shots and promotes more regular groupings.

Ideal for high-performance configurations

Designed for the most demanding users, these BBs are a natural fit for meticulously prepared airsoft replicas. Their high weight allows for maximum performance in precision-oriented setups while maintaining excellent feeding quality.

Additional features

- **Manufacturer code:** 1BA-H48
- **EAN:** 5901698485870
- **Finish:** High-precision polished surface
- **Origin:** BLS manufacturing
- **Type:** non-biodegradable beads
- **Use:** precision and long-range airsoft

FAQ

What type of replica is the 0.48g weight intended for?

The 0.48g weight is intended for airsoft replicas properly adjusted for the use of heavy BBs and geared towards long-range accuracy.

Why are these BBs recommended for precision guns?

Their 5.95 mm diameter with a tolerance of ± 0.01 mm guarantees excellent homogeneity, ideal for fully exploiting the performance of a precision barrel.

Are these beads biodegradable?

No, this model is made from a high-quality plastic composite and belongs to the category of non-biodegradable beads.
