A versatile cartridge designed for traditional small game hunting.

The **Winchester Plains 32g 12/70 cartridge** is loaded with **32g of lead shot** and features a **wad with a skirt** to provide a consistent pattern and a velocity of **395 m/s** . Ideal for **small game hunting** , it ensures consistent performance in both open fields and wooded areas.

- **Caliber:** 12
- **Socket length:** 70 mm
- **Load:** 32 g
- **Projectiles:** Lead shot
- **Lead numbers:** 5 and 6
- **Filling type:** Skirt
- **Base:** 12 mm
- **Muzzle velocity:** 395 m/s

A cartridge designed for small game hunting

The **Winchester Plains** was developed to support hunters in the most common situations of **traditional hunting** . Versatile, it is equally suited to outings in open fields and in wooded areas, where speed of shooting and efficiency are essential.

32g load and high speed

Its **32-gram lead shot** load, combined with a velocity of **395 m/s** , offers an excellent balance between shot pattern density, energy, and effective range. This combination guarantees consistent performance on a wide variety of small game.

Skirted wadding for a regular sheaf

Equipped with a **wad with a skirt** , this cartridge promotes a consistent shot pattern while minimizing pellet deformation upon firing. This results in even coverage, particularly well-suited to short and medium-range shooting.

Different shot sizes depending on the game

Available in **shot sizes #5 and #6** , this ammunition allows you to easily adapt your choice to the target species and hunting conditions. This versatility makes it a versatile option for the entire season.

FAQ

What lead numbers are available?

The Winchester Plaines 12/70 32g is offered in shot sizes 4, 5, 6 and 7 to suit different types of small game.

What type of hunting is this cartridge suitable for?

It is intended for traditional small game hunting, in plains as well as in woods, for short and medium range shots.

What is the purpose of a skirted stuffing?

The skirted wad protects the shot during firing, promotes a homogeneous pattern and helps maintain consistent performance all the way to the target.
